

Series

CL-M1

The CL-M1 series includes a wide range of models with a single vacuum cup whose maximum load capacity goes up to 750 kg.

This vacuum lifter is powered by a long-lasting, rechargeable battery (220V charger included).

The manual tilting system allows vertical - horizontal movement and vice versa.

The lift is equipped with an audio-visual alarm system that warns the operator of possible dangers. In addition, the vacuum gauge with coloured scale allows constant monitoring of the vacuum level. The lifter's longevity is also guaranteed by a dust and condensation filter system.

Horizontal lifting

1 suction pad

Vertical lifting

Max capacity 750 kg

Manual tilt 0-90°

Safety systems

Technical specifications

Application	Wall panels
Capacity	Up to 750kg
Suction pads	A single suction pad
Load movement	Manual tilt 0-90°
Power supply	Battery
Vacuum system	Vacuum circuit, complete of vacuum reserve and non return valve
Tara	Dipende dal modello
Control	Manual valve on the lifter's frame Release of the load by dual action security command
Standard features	On-off double sliding valve with safety Audible and visual low vacuum warning devices Vacuum gauge with coloured scale, vacuum filter, non return valves
